

How-To: Use Your Sage Zoom Account

Zoom Meetings is our new conferencing software that enables video and audio conferencing, chat, and webinars across mobile, and desktop systems. Zoom has replaced Adobe Connect for The Sage Colleges. It offers higher quality audio and video conferencing, screen sharing, and provides phone conference lines as well.

Sage has purchased a site license for Zoom. All members of the Sage community have pro licenses when they sign in to Zoom using the method described below.

Here's how it's done

Sign In

Visit zoom.sage.edu. From there you'll have the option to Sign in.

Join or Start a Meeting

After you've logged into Zoom with your Sage credentials using Sage Single Sign-on you can join or start a meeting. To do so click on either Option located in the top right of your Zoom account page.
